Water Management	TC-SC-140a.1	(1) Total water withdrawn, (2) total water consumed, percentage of each in regions with High or Extremely High Baseline Water Stress	Thousand cubic meters (m ³), Percentage (%)	(1) Total water withdrawn was 12,622,808. 72% was at manufacturing facilities located in regions with High or Extremely High Baseline Water Stress. (2) Total water consumed was 3,869,577. 71% was at manufacturing facilities located in regions with High or Extremely High Baseline Water Stress. ¹
Waste Management	TC-SC-150a.1	(1) Amount of hazardous waste from manufacturing, (2) percentage recycled	Metric tons (t), Percentage (%)	(1) 2,975 (2) While we do not report the percentage of hazardous waste recycled, we do recycle hazardous waste. However, regional variations in the designation of hazardous materials and how hazardous waste is classified make it difficult to quantify this activity. Please see the "Waste" section of the "Environment" chapter of our 2022 Corporate Sustainability Report for more details.
Employee Health & Safety	TC-SC-320a.1	Description of efforts to assess, monitor, and reduce exposure of employees to human health hazards	n/a	NXP uses controls and procedures to assess, monitor, and reduce the exposure of our employees to human health hazards. These controls and procedures are detailed in our management system, which is certified to the ISO 45001 standard. As part of this management system, we reduce risk by conducting risk assessments. Each risk assessment generates a list of controls to limit risk. For example, personal protective equipment (PPE) and extensive training for our employees are provided to effectively control risks identified through the risk assessment. Continuous monitoring of the documented controls is ongoing, to verify that the controls are indeed working appropriately and that the risk to employees is minimized. For more information, please see the "Health and Safety" section of the "Our Team Members" chapter of our 2022 Corporate Sustainability Report .
	TC-SC-320a.2	Total amount of monetary losses as a result of legal proceedings associated with employee health and safety violations	Reporting currency	In 2022, NXP did not incur monetary losses as a result of legal proceedings associated with employee health-and-safety violations.

¹ For this metric, High or Extremely High Baseline Water Stress is classified using the World Resources Institute's (WRI) Water Risk Atlas tool, [Aqueduct](#).
